The screenshot shows the 'Output' tab selected among five tabs: Layout, Setup, Output, Options, and Bleed. Below the tabs are four settings: 'Print Colors:' set to 'DeviceN', 'Resolution:' set to '2400 (dpi)', 'Halftoning:' set to 'Conventional', and 'Frequency:' set to '175 (lpi)'. At the bottom is a table with columns: Print, Plate, Halftone, Frequency, Angle, and Function. The table body is currently empty.
